

Aquanaut Yachtcharter

Your **journey** begins in **Sneek**

Aquanaut Yachtcharter in Sneek is a division of the international operating boatyard Aquanaut Yachting Holland. Aquanaut has been building its renowned steel motor yachts for more than 50 years now, and each year a number of Aquanaut motor yachts have found their way to countries throughout Europe.

Charter

Aquanaut Yachtcharter hires out nine types of motor yachts from its harbour in Sneek. The number of sleeping berths on board varies from four to eleven. Do you have any plans to make a long cruise with just the two of you, or perhaps to spend a few days on the water with a group of friends? At Aquanaut you will find a suitable motor yacht for any desired charter period.

Sneek

Sneek is situated in the centre of the extensive lakes region in the Province of Friesland. You can navigate a wide variety of waterways from this splendid water sport town.

Are you looking for a new boat, a reasonably priced second-hand boat or a stylish charter boat? Aquanaut Dutch Craftsmanship in Sneek is the starting point for unlimited boating pleasure. Steel or polyester, large or small, ultramodern or something more traditional.....we will help you to make the right choice.

From Monday up to Friday (08.30 - 17.30) including Saturday (10.00 - 13.00) a team of professionals are available to you at our boatyard in Sneek; the water sport centre of Friesland. But of course www.aquanaut.nl is also a good starting point.

Aquanaut's Dutch Craftsmanship can be found this year at the following exhibitions:

- Boot Holland (Leeuwarden, NL) February 12 - 17, 2016
- Motorboot Sneek (Sneek, NL) April 8 - 10, 2016
- Hiswa Afloat (Amsterdam, NL) August 30 - September 4, 2016

Visit Aquanaut.nl for all our models.

Aquanaut Dutch Craftsmanship

An Aquanaut is built for many years of boating pleasure or, if you wish, for unlimited boating pleasure. Every Aquanaut can be updated by us to yet again fulfill the most recent wishes.

Wishes continue to evolve in life just like Aquanaut's model range. With new models repeatedly being added or existing models being updated, for example, because new technology makes this possible or because the market calls for it.

See it as evolution when each new Aquanaut is built on the success of an earlier model. This course gives you the best assurances and safeguards especially as, in deciding what course to take, we always start with the customer's wishes.

- From design, construction to final delivery
- Flexibility and chance to be innovative
- High quality materials
- Realization of customer wishes with competent advice

It starts in Sneek

- ✓ 35.000 m² water sport
- ✓ 120 Aquanaut Yachts for example in marina
- ✓ 30 occasions
