AQUANAUT 
Dutch Craftsmanship

Voyager

Proud of the choices you make.

Life is a succession of choices. and has led you to this unique moment in which you are at the point of purchasing your own motor yacht. With an Aquanaut European or Global Voyager you are choosing for passion, craftsmanship and top quality. Also, your motor yacht will be hand built in our boatyard in Sneek. This will give you more sailing pleasure since there is plenty of scope for personal choices. Your choices, because whichever model you choose you will always be proud of it. With a European or Global Voyager you are choosing for perfect sailing characteristics with design and layout in very good taste. Your own taste!

VOYAGES BEGIN with choices

How far, comfortable and safe do you wish to sail, and with how many people and for how long? Do you see the ocean as the limit or as part of your itinerary? Practical questions that make the emotional decision in finding your ideal motor yacht easier, because every journey begins with choices. This brochure will help you on your way.

Global Voyager: Largest Aquanaut motor yacht for great voyages and wishes. Everything breathes premium class. An elegant Mediterranean design with rounded shapes in combination with a strong Dutch bow, very spacious sun deck, salon and cockpit. Everything is on one level with a high standard of built-in safety and comfort, thus extremely suitable for long voyages or even for permanent living aboard. The capacity of the various tanks has been adapted accordingly. Perfect choices for people that think about possibilities and not limits. In freedom, adventure and holidays from the North Cape to Gibraltar.

European Voyager: Exciting and robust design, inspired by the American PassageMaker Trawler yachts. Suitable for inland and open waters. The air draft and construction of the European Voyager gives you the option of sailing along the coast or, for example, navigating the inland waterways to the South of France. No shortage of space. There are two floor levels running over almost the whole length of the boat. The salon and the open cockpit are on one level and the upper deck is spacious. All together this gives you the freedom and space for a luxury life inside and a delightful one outside; also outside of the normal sailing season.

ULTIMATE FREEDOM Voyager

The world invites you to enjoy yourself.

You don't have to discover the world for mankind because that has already been done for you. Every part of Earth has already been mapped and that is actually pleasing. Indeed, it gives a kind of assurance that you will not get lost if you do wish to discover the world for yourself. With modern technology you can reach your destination quicker, more comfortable and safer than the explorers of old would have thought possible. And yet the feeling of freedom and

adventure that Christopher Columbus, William Barentz or Abel Tasman experienced is unchanged. With your Aquanaut Global or European Voyager you can call into harbours all over the world. For example, you can watch the sunset together on deck in Spain, Croatia, Southern France or Florida. The feeling that you have the possibility of doing this is, in itself, a worldly pleasure.

STYLE AND FUNCTION

Voyager Exterior

Innerlijke kracht om uiterlijk verwachtingen te overtreffen

The European and Global Voyager are motor yachts with their own character and styling but always dynamic, well thought out and discreet. Timeless quality that will also prove its value in the future. The powerful Dutch bow shows that a Voyager has serious sailing characteristics. The multi-chine hull configuration provides for pleasing and comfortable cruising performance under all conditions. A European Voyager is certified Category CE B (seaworthy) as standard, but this can be upgraded to Category CE A (ocean worthy) if desired. A Global Voyager is

certified CE A as standard. Equipment and motorisation is understandably fitted to accord with the sailing area. Sufficiently large diesel and water tanks and powerful reliable engines provide for the desired sailing range. Excellent insulation, air conditioning (optional) with heating and plenty of room provide comfort in all seasons and at all points of the compass. Large window fittings make the Voyager lighter, literally and figuratively.

STYLE AND FUNCTION

Voyager Interior

Everything that is needed for an exceptional stay aboard

Style in service and function. That is the essence of a well designed motor yacht interior. For these reasons your interior detail and layout is only drawn when the construction of your motor yacht has commenced. This affords more time to incorporate all your wishes. Every interior is namely 100% custom-made. As far as style is concerned, you have a choice of a classic interior with much solid woodwork of, for example, cherry or walnut, or a more modern style with light oak or teak with leather accents. In considering your wishes

we first put together a selection of materials and equipment. However, the final choice is always yours and there really is plenty to choose from. In manufacturing the interior manual craftsmanship is combined with computer controlled design, cutting and router techniques. This ensures that function can also take almost any desired style, because it is our mission to offer you and your guests all that is needed for a pleasant stay aboard your Voyager.

VOYAGER (100%) Reliable

A reliable companion on an often unpredictable sea

Those that know the stormy nature of the sea want to have maximum safety. With a Voyager you know that your boat will be built by a boatyard with a long history of experience. Since 1961 Aquanaut has built the very best motor yachts in her class with passion. In the meantime, more than a thousand boats have been rolled out of the yard. Aquanaut is the only boatyard in the Netherlands with ISO 9001 certification; certification that is guaranteed by Lloyd'

Register. Our motor yachts meet all the CE standards and the strict law and regulations of the Netherlands that govern the construction, seaworthiness and (fire) safety. Monitoring of these Ordinances is carried out by the Dutch Certification Institute (DCI). Additionally, Aquanaut is affiliated to the well known Dutch Yacht Building branch organisations. All these built in safety assurances carry safeguards for and dependability of your Voyager.

VOYAGER
Options
and possibilities

Always the right choice
from a wide range of possibilities.

No two people are identical, no wish is identical – thus no two Aquanauts are identical because Aquanaut delivers 100% custom-built motor yachts. Naturally you choose a particular type, such as a European or Global Voyager, but then you have a wide range of choices regarding colour, materials, dimensions, equipment, interior finish and layout. You will get all the support needed to realise the dream as you saw it. In line with your wishes we

always, firstly, put together a selection of materials and equipment. This selection is based on our insight over many years of translating wishes into reality. In this, proven reliability is an important weighting factor and our preference will always be weighted toward reputable brands that have a world-wide service network. This is essential for motor yachts, and for skippers who do not see national borders as hurdles but as new horizons.

Some differences between European Voyager and Global Voyager	European Voyager	Global Voyager
<i>Sailing Area*</i>		
Inland waterways to South of France 1300 - 1500	•	
Inland waterways to South of France only 1500		•
To the Black Sea via the Danube	•	•
CE Category B, seaworthy	• A option	
CE Category A, ocean going		•
Tank capacities as required with global range		•
<i>Exterior</i>		
Cockpit closer to water surface, stair to wheelhouse	•	
Flush deck, no difference in above height level		•
Fly bridge low above the water, high windshield behind	•	
Fly bridge above wheelhouse, extra long interior		•
<i>Interior</i>		
Height differences for low air draft	•	
Mostly level floors		•

VOYAGER
Personal
service

A passion for sailing is the motivation and driving force of the Aquanaut family company. You will see this reflected in a good and personal service and after sales support. Whoever buys an Aquanaut becomes part of the family. You will receive the best possible support in making the right choices throughout each stage of building your boat. Similarly, after the inaugural launching of your boat you can count on support from Aquanaut. A two year guarantee with calamity service ex wharf is standard. After the expiry of the guarantee period you can rely on Aquanaut service and maintenance at costs commensurate with current market tariffs. That is the advantage of a family concern with passion and a long term vision. It is also demonstrated by a sound customer satisfaction record.

FINISH European Voyager

Experience the luxury feeling of Aquanaut

Gain more in-depth knowledge about a European or Global Voyager than outlined in this brochure. Visit our boatyard and see for yourself how we build our boats with passion and craftsmanship. Even better: have a trial sailing. The ideal way to do this is to hire an Aquanaut. This will give you all

the time and opportunity to discover what the pleasurable characteristics of an Aquanaut are or what choices you would make, to make your own Aquanaut even more pleasurable. Only on the water can you really experience the rich feel of an Aquanaut. A feeling that cannot be translated into words

other than freedom, comfort, safety and being at one with nature. We are always at your service to answer all your questions and to realise all your wishes.

Aquanaut Dutch Craftmanship since 1961

Water and commerce, the city of Sneek has a rich history covering hundreds of years when it comes to shipping and ship building. Water and ships are integral to our city's culture. It is in the people's hearts and DNA, and thus also in our company and the professionals that work there. Our company is located practically in the heart of Sneek and covers an area of almost 35000m². All of Aquanaut's company divisions are sited within this extensive area, such as yacht building and yard, boat rental, yacht brokerage, boathouses, yacht service and yacht harbour. Aquanaut thereby offers, since 1961, professional craftsmanship from A to Z in the area of motor yachts.
