

DUTCH CRAFTSMANSHIP

An Aquanaut is built for enjoying many years of sailing. Or better yet, for unlimited sailing pleasure. We can update every ship to meet your most recent requirements.

After all, your requirements can vary, as can Aquanaut's line of models. New models are added or improvements are made to existing models. Either thanks to new technology or because the market calls for it. See it as an evolution where each new Aquanaut builds on the success of previous models. This approach will give you the best guarantee for retaining the value of your ship. However, what our customers want is always first and foremost in determining our approach.

Aquanaut Dutch Craftsmanship since 1961

Water and commerce, the city of Sneek has a rich history covering hundreds of years when it comes to shipping and ship building. Water and ships are integral to our city's culture. It is in the people's hearts and DNA, and thus also in our company and the professionals that work there. Our company is located practically in the heart of Sneek and covers an area of almost 35000m². All of Aquanaut's company divisions are sited within this extensive area, such as: yacht building and yard, boat rental, yacht brokerage, boathouses, yacht service and yacht harbour. Aquanaut thereby offers, since 1961, professional craftsmanship from A to Z in the area of motor yachts.
